Skills

- **Languages**: Python, Java, JavaScript, C, C++, Kotlin
- **Web Development:** HTML5, CSS3
- **App Development:** XML, Jetpack Compose, Material Design 3
- **Databases**: SQL, MySQL, DBMS
- **Tools/Platforms**: Git, GitHub, GitLab, Linux (Ubuntu), VS Code, Android Studio
- **Libraries/Frameworks:** NumPy, Pandas, Matplotlib, Seaborn, Scikit learn, MVVM, Firebase, Room
- **Soft Skills**: Adaptability, Accountability, Creativity, Teamwork

Projects

NoteMate – Android Note-Taking Application: GitHub January 2025 – February 2025

- Developed an Android Note-Taking application enabling users to create, edit, delete and search notes.
- Implemented MVVM architecture with Room database and Jetpack components for efficient data management.
- Designed responsive XML layouts using Recycler View to deliver a clean and user-friendly interface.

Tech Stacks: Kotlin, Jetpack Compose, Room Database, MVVM, Android Studio, Git

Drug Overdose Data Analysis – Data Science Project: GitHub August 2024 – September 2024

- Analyzed large-scale U.S. overdose mortality data to uncover trends to across drug types, age groups, gender and race.
- Performed data cleaning, exploratory analysis, and statistical evaluation to identify anomalies, correlations, and risk patterns.
- Visualized key insights using charts and heatmaps to highlight temporal growth and demographic disparities in overdose deaths**.**

Tech Stacks: Python, Pandas, Matplotlib, Seaborn, Data Cleaning, Statistical Analysis, EDA

Gym Workout Website – Fitness & Training Platform: GitHub November 2023 – December 2023

- Created a responsive fitness website showcasing workout routines, fitness programs, and health guidance for easy user navigation.
- Structured interactive pages for workouts, nutrition, and consultations using clean UI components and client-side scripting.
- Enhanced user engagement through organized content flow, visual sections, and intuitive layout for fitness planning.

Tech Stacks: HTML, CSS, JavaScript, MERN Stack

Training

Android Developer Pro – Hands-On Projects & Play Store Launch: Link June 2025 – July 2025

- Worked on hands-on projects covering UI design, activities/fragments, state management, API integration, data storage, and app deployment fundamentals.
- Gained practical exposure to end-to-end app lifecycle, debugging, optimization, and Play Store release processes, earning an *O Grade* for outstanding performance.

Tech Stacks: Android Studio, Kotlin, XML, Firebase, APIs, Git

Certificates

- Cloud Computing – NPTEL (IIT Kharagpur) - Swayam — April 2025
- The Complete 2024 Web Development Bootcamp – Udemy — February 2024

Achievements

- Solved 200+ Data Structures and Algorithms problems on LeetCode. — February 2026

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.6*** — *Since August 2023*
- **DAV Public School** — Bhagalpur, Bihar
  Intermediate; ***Percentage: 70*** — *April 2021 – March 2022*
- **DAV Public School** — Bhagalpur, Bihar
  Matriculation; ***Percentage: 90*** — *April 2019 - March 2020*
